21st September 2017

Dear Parents/Carers

The children have made a wonderful start to the school year and all staff involved are so pleased with them. In order to further their learning, we will be enriching their curriculum – so life will become even more exciting! Next week will be LEGO WEEK! We have set ourselves the difficult task of teaching our lessons through the use of Lego for a whole week – no easy feat.

Please, as always, encourage your child to discuss what they have achieved with you. This half term, we are linking our theme of 'communication' to our science topic of 'sound'. Your child will be investigating and experimenting with a wide range of musical instruments, many of them made both at home and at school. We would be grateful if you would send in any kitchen roll tubes you have finished with to help us with this.

We would like to invite you to a drop-in session to share our science learning with us on Friday 20th October, any time between 2:30pm and 3:30pm. As always, expect to be amazed and to be worked incredibly hard!

Many thanks for your continued support.

Kind regards

The Year 3/4 Team
