Home Learning Tasks

Year 3/4

Summer 2nd half term 2018

Measure the growth of a plant in your garden and record the results in a chart (provided). Measure the plant in CM three times per week.

Date completed:

Write a poem about any subject that you like. Remember to include some of these features:
Rhyme
Alliteration
Onomatopoeia

Date completed:

Create a poster to be displayed in towns and cities telling people how important environmental issues are. Give tips for how we can help to preserve and protect the environment.

Date completed:

Ongoing: Log onto Mangahigh and play the games assigned to you. Can you earn a gold medal? If you have completed these, search for other games to play. Your login details are in your white planner.

Pick a flower and draw it using pencil only. Use shade to show different textures and include as much fine detail as possible.

Date completed:

Draw and label a diagram showing at least five vital parts of a plant. Remember a scientific diagram isn't artwork it needs to be clear with each part labelled.

Date completed:

Make a model to show the main parts of a flowering plant. You can use waste materials such as bottle tops, straws, cardboard, cuttings from newspapers and magazines.

Date completed:
