

Multiplication and Division

Use the multiplication square given to you, colour in all the facts you already know. Now create a game to help you practise the multiplication and division facts that you do not already know.

Challenge: Play with a friend.

Date completed:

Ongoing: Log onto Mangahigh and play the games assigned to you. Can you earn a gold medal? If you have completed these, search for other games to play. Your login details are in your white planner.

Design a new mode of transport. Use your knowledge from the history of transport, or create a futuristic type of transport.

Challenge: Make a model.

Date completed:

Last term we learned how to write an amazing play script. Choose one of your favourite stories and turn it into a play script OR make up your own play script. It could even be about an adventure you imagine that you got up to over the holidays.

Date completed:

Home Learning Tasks

Spring 2018

Year 3 / 4

Theme:

Transport

Staying Safe! Think of a way to promote safety outside of school when it is dark. Last term, we learned all about light and dark; use this knowledge to help you. Think about when and where safety is important. Decide how to present your idea.

Date completed:

In Science, we are learning about forces and magnets. Go on a magnetic scavenger hunt around your home. Create a list of items you think will be magnetic or not, make your predictions, then find the objects and test them with a magnet.

Challenge: Present your findings in a table.

Date completed:

Create a cartoon strip using two characters of your choice. Use speech bubbles to write a conversation in French. Use any words and phrases that you know. Eg. Ca va? Ca va bien.
