

Activities to do with your child before they start Reception

We know the beginning of school can feel scary for you and your child. These are also different times and the uncertainty of lockdown means you might be worrying that your child won't be ready for reception. **Don't panic!**

Here are some things you can do with your child at home over the coming weeks to help make sure they're just as ready to start reception as they would otherwise have been.

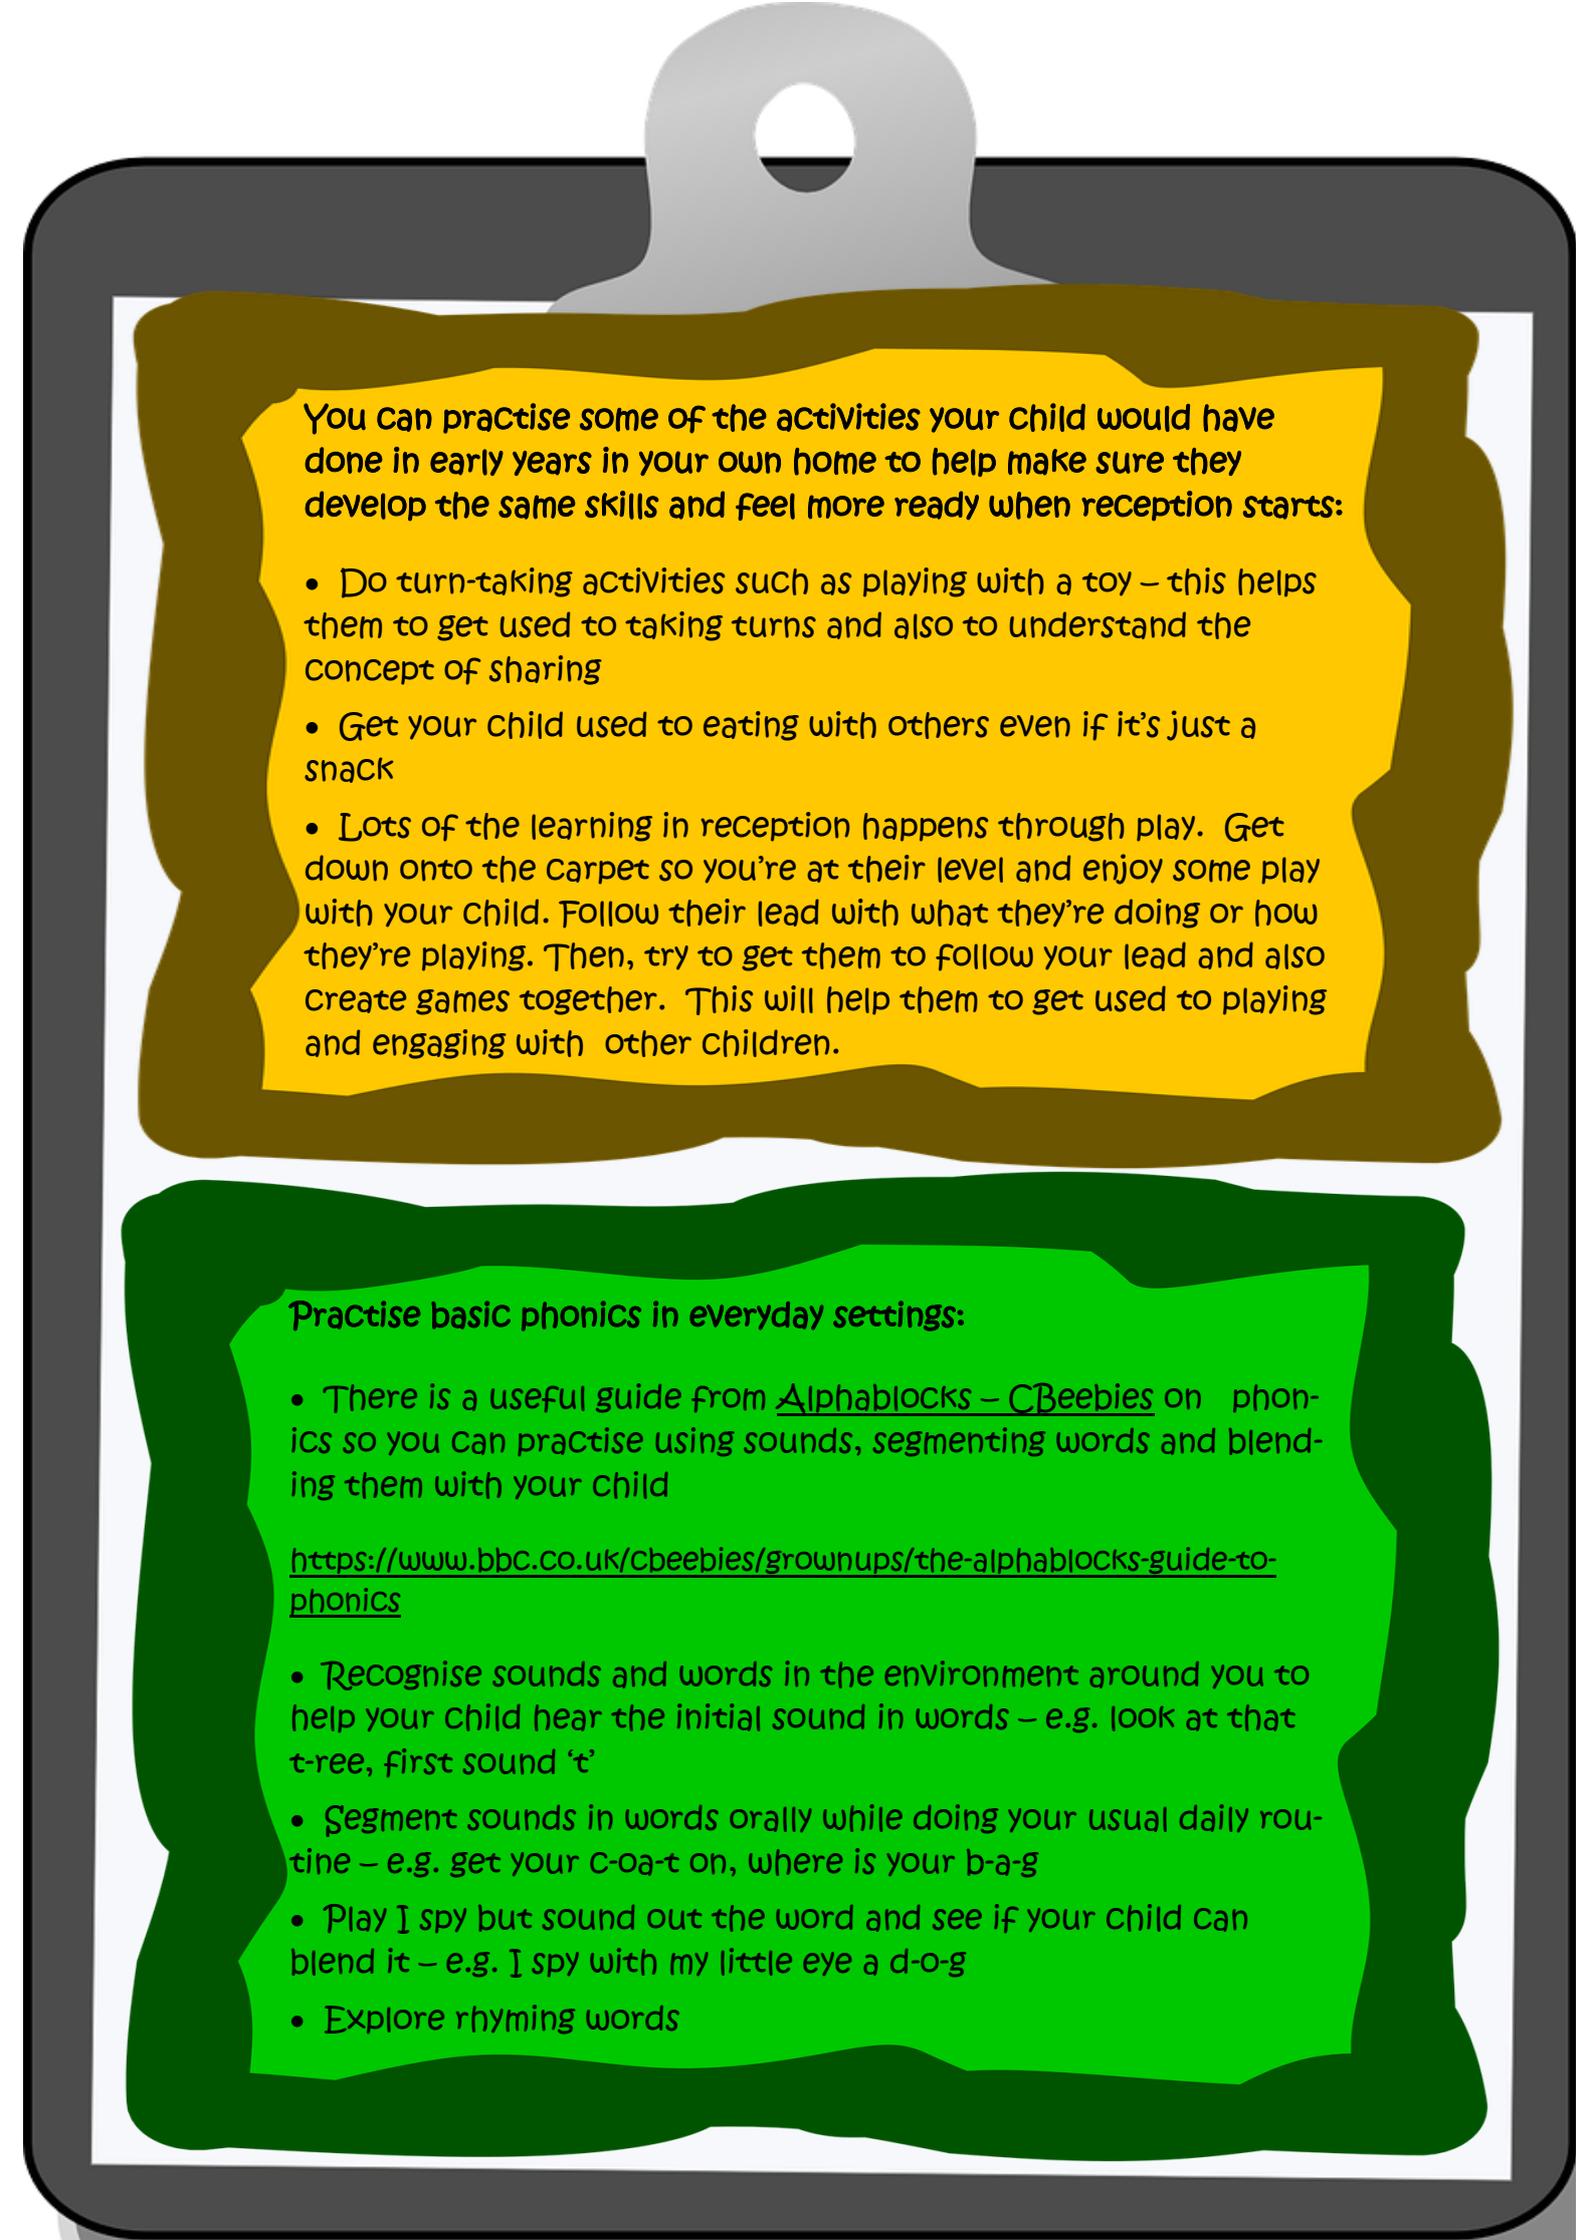

We're not expecting you to become reception teachers and we understand that not everyone will find the time to do all of these activities – that's fine. Try to fit them where possible into your daily routines. Whatever happens, we'll make sure that all children catch up when they start.

If you have any questions about these activities, get in touch.

To help your child develop independence, get them used to doing the following at home:

- Getting dressed independently every day – practise putting on their own clothes, putting on socks and shoes on the right feet, putting coat on and zipping up
- Going to the toilet and wiping their bottom on their own – simple clothing like elasticated waistbands are easier to get on and off
- Cutting food using a 'real' knife and fork
- Tidying up their toys and doing simple household jobs – giving them responsibilities will help them to become more independent

Helping them to recognise their name in writing and to consistently respond to it verbally.

You can practise some of the activities your child would have done in early years in your own home to help make sure they develop the same skills and feel more ready when reception starts:

- Do turn-taking activities such as playing with a toy – this helps them to get used to taking turns and also to understand the concept of sharing
- Get your child used to eating with others even if it's just a snack
- Lots of the learning in reception happens through play. Get down onto the Carpet so you're at their level and enjoy some play with your child. Follow their lead with what they're doing or how they're playing. Then, try to get them to follow your lead and also create games together. This will help them to get used to playing and engaging with other children.

Practise basic phonics in everyday settings:

- There is a useful guide from Alphablocks – CBeebies on phonics so you can practise using sounds, segmenting words and blending them with your child

<https://www.bbc.co.uk/cbeebies/grownups/the-alphablocks-guide-to-phonics>

- Recognise sounds and words in the environment around you to help your child hear the initial sound in words – e.g. look at that t-ree, first sound 't'
- Segment sounds in words orally while doing your usual daily routine – e.g. get your c-oa-t on, where is your b-a-g
- Play I spy but sound out the word and see if your child can blend it – e.g. I spy with my little eye a d-o-g
- Explore rhyming words
