26th April 2021

Dear Parents,

The children are loving our current floorbook work, learning all about animals and humans in science. To consolidate this learning, and enhance their enjoyment and understanding, we are inviting Sam's Safari to come into school to work with the children.

On **Friday 14th May 2021**, Sam's Safari will bring seven different animals (a combination of mammals, amphibians, reptiles, birds, fish and insects) into school. The children will work in their four floorbook groups in a hands-on workshop learning more about each of the animals, talking about where they come from, what they eat etc. The children will be shown how to touch or hold the animals if they want to. We will finish the day with a fun quiz all about the different animals we have explored.

The session is priced at **£5.50** per child and we would welcome voluntary contributions towards the cost via SIMS Pay by Friday 7th May. Thank you for your support.

Kind regards,
The Year 1 Team
